TAP 1/4 TURN**  
Code: TMWM1520LF

**COMBO DISHWASHER  
TAP 1/4 TURN**  
Code: TMDW1520LF

### Our popular Terminator range, now lead-free\*

The innovative swivel nut design you can rely on is now manufactured using lead-free\* brass.

This range features a rotating nut, allowing the outlet to be adjusted to the correct position for easy connection.

The cone washer seals on the inside of the brass nipple, meaning teflon tape or hemp is not required, minimising the risk of leakage.

Design features:

- Designer lever/pin style handle.
- Highly polished chrome.

### Features

Install to desired position first time

No teflon or sealant required

Great for confined spaces

Maximum working pressure 500kPa

Hot and cold indicators included

Slimline compact profile.
