

Lead Free Lockable Ball Valve

Brass ball valve featuring a full-port design for high flow, paired with a stainless-steel lever that can be locked in the open or closed position — offering tamper-proof operation and added safety. Ideal for demanding systems where durability, stability, and controlled isolation matter.

Features

Made from lead free DZR CW511L brass, safe use in potable water systems.

Nickel plated brass body

Maximum operating pressure 2500kpa PN25

Working temperature 60°C

WaterMark approved - License No. WM60182
