

Maxitrol Excess Flow Valve Residential Gas Flow Control

Ensuring Reliable Gas Flow Control

The Maxitrol Excess Flow Valve brings a reliable solution to residential gas flow control, with precise adjustment and compliance with new installation codes.

A stable open position, tested operating pressure range, and patented damper function, these valves offer homeowners peace of mind and enhance safety in gas

installations.

Features

$\mathbf{\nabla}$	Complies with the new AS/NZS5601.1 (Clause 5.2.11)
$\mathbf{\nabla}$	Size range 20mm to 40mm
$\mathbf{\nabla}$	Tested operating pressure range 1.25-10kPa
$\mathbf{\nabla}$	Nominal flow from 1.6m³/h natural gas to 16m³/h

PRODUCT INFORMATION

Hydroflow Code	Description	UOM	MOQ	List Price	Discount	Net Price	Tick to indicate interest		
KG-EFV20UH1.6	Excess Flow Valve 20mm M/F 1.6 m3/h. Flow Up & Horizontal								
KG-EFV20UH2.5	Excess Flow Valve 20mm M/F 2.5 m3/h. Flow Up & Horizontal								
KG-EFV25D4	Excess Flow Valve 25mm M/F 4 m³/h Flow Down								
KG-EFV25D6	Excess Flow Valve 25mm M/F 6 m³/h Flow Down								
KG-EFV25UH4	Excess Flow Valve 25mm M/F 4 m³/h Flow Up & Horizontal								
KG-EFV25UH6	Excess Flow Valve 25mm M/F 6 m³/h Flow Up & Horizontal								
KG-EFV32UH10	Excess Flow Valve 32mm M/F 10 m³/h Flow Up & Horizontal								
KG-EFV40UH16	Excess Flow Valve 40mm M/F 16 m³/h Flow Up & Horizontal
