

Swing Joint

Irrigation Fittings

Swing Joints Make it Easy to Connect your Sprinkler to your Pipe

The Swing Joint serves as a connector for your sprinkler to your pipe, offering flexibility and adaptability to the sprinkler setup.

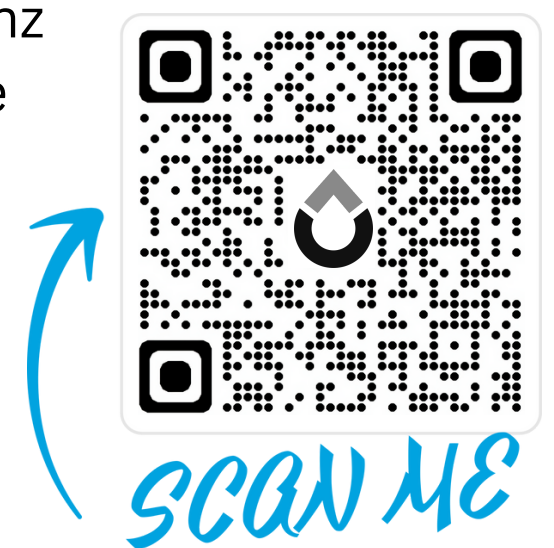

It allows the sprinkler to be set at the correct height at installation time and for easy adjustment of its position in response to ground movement over time.

Features

- ✓ Two additional sizes to complement our Rain Bird range.
- ✓ For use with 1800, 3500, and 5000 series sprinklers.
- ✓ BSP threading.
